Experienced lawyers, young lawyers, specialist lawyers, different languages and culture capabilities, women in the profession... does diversity make it perfect?

Nowadays, there is an ever-increasing demand for higher quality, faster and better services from law firms, which can only be delivered by a team of professionals. There is increased recognition of diversity in the workplace and the legal industry is no exception. This panel will try to answer some tricky questions. Leniency: the future for cartel enforcement in Latin America

During the last few years, some Latin American jurisdictions have created leniency regulations in order to improve cartel enforcement. Although increasing numbers of leniency cases have been filed in Latin America during recent years, in some countries, leniency has not yet emerged as the main tool for cartel detection in Latin America. How does leniency work in those countries and in non-Latin American jurisdictions? Which and how many leniency cases were filed during the last five years in Latin America? Are confidentiality issues and civil and criminal actions a deterrent for leniency? Which are the challenges for a multi-jurisdiction leniency process that includes Latin American countries? Is it a matter of time before leniency becomes the main tool for cartel enforcement in all of Latin America?

International Bar Association

the global voice of the legal profession

The **International Bar Association** (IBA), established in 1947, is the world's leading organisation of international legal practitioners, bar associations and law societies. The IBA influences the development of international law reform and shapes the future of the legal profession throughout the world. It has a membership of more than 55,000 individual lawyers and over 190 bar associations and law societies spanning all continents. It has considerable expertise in providing assistance to the global legal community.

Grouped into two divisions – the **Legal Practice Division** and the **Public and Professional Interest Division** – the IBA covers all practice areas and professional interests, providing members with access to leading experts and up-to-date information. Through the various committees of the divisions, the IBA enables an interchange of information and views among its members as to laws, practices and professional responsibilities relating to the practice of business law around the globe. Additionally, the IBA's high-quality publications and world-class conferences provide unrivalled professional development and network-building opportunities for international legal practitioners and professional associates.

The IBA's **Bar Issues Commission** provides an invaluable forum for IBA member organisations to discuss all matters relating to law at an international level.

The IBA's **Human Rights Institute** (IBAHRI) works across the Association, to promote, protect and enforce human rights under a just rule of law, and to preserve the independence of the judiciary and the legal profession worldwide. Other institutions established by the IBA include the Southern Africa Litigation Centre and the International Legal Assistance Consortium.

Latin American Regional Forum overview

The Latin American Forum covers all countries in Latin America as well as Mexico, Puerto Rico and Spanish-speaking areas of the Caribbean. The Forum provides a focus for all activities in the region, organising sessions at IBA conferences and in particular has been instrumental in ensuring that a Latin American perspective is addressed during relevant special sessions. The Forum is closely affiliated with the North American Regional Forum as the regions are geographically proximate and share many issues.
